

# UNDERWATER ROBOTICS CAMP

**WHEN:** June 19th -23rd

**9:00 AM to 12:00 PM**

**WHERE:** Ocean First in  
Boulder, CO

**WHO:** Ages 9-14

**COST:** \$250

**The ocean covers more than 70% of the Earth's surface, yet less than 5% of it has been explored!**

## LEARN, BUILD, EXPLORE

Do you have an interest in marine science, engineering, or exploration of the natural world? In this robotics summer camp, you will get to work as a team to build your very own underwater ROV (remotely operated vehicle), and use creativity and innovation to solve design challenges faced by real-life researchers. The program is run by scientists who will share their knowledge of the ocean and the importance of studying our marine ecosystems. Through this camp, you will learn how exploration continues to increase our knowledge of the marine environment every day, helps to protect our ocean, and how you can be a part of the next discovery!

## WORK ALONGSIDE OUR OCEAN FIRST INSTITUTE STAFF

**Dr. Mikki McComb-Kobza**  
*Executive Director  
Shark Biologist*

**Lauren Riegler**  
*Director of Outreach  
Conservation Biologist*

**OCEANFIRST**  
INSTITUTE

**OCEANFIRST**

Limited spaces available, so register today! For more information or to register please contact [info@oceanfirstinstitute.org](mailto:info@oceanfirstinstitute.org).
